SKILLS

Prototyping
Responsive design
User research
Design systems
Information architecture
Agile development
Design tokens
Accessibility

TOOLS

Figma
Playwright
Claude Code/Design
Cursor/Codex
Storybook
Supernova
Vercel/Netlify
Pendo
Agents
Mobbin
Github

CODE

HTML/CSS
Javascript
Typescript
React

EDUCATION

Launch Academy - 2019
Fullstack Apprenticeship

University of Maryland
Bachelor of Arts, 2014

EXPERIENCE

Product Designer II

BAMBOOHR | OCTOBER 2025 - PRESENT

- → Designed and maintained components within a 124-component library serving 20+ product teams and 30+ designers.
- → Led a company-wide initiative to make the entire library responsive, enabling support for the 19% of users on mobile, closing the feature gap between the desktop and native app experiences.
- → Lead Designer for Project Artemis, a 90-day initiative accelerating feature delivery through AI-orchestrated workflows.
- → Built internal tooling to scale the design system: a Claude-powered agent that evaluates, specs, and previews new components automatically, and a product sandbox enabling self-serve prototyping and user testing without engineering setup.

Product Designer | UX Engineer

QUALITI AI | SEPTEMBER 2023 - SEPTEMBER 2025

- → Sole designer for an AI-native platform that generated automated Playwright test suites for QA engineers. Owned the full design surface end to end, from early exploration through shipped product.
- → Created the Eucalyptus Design System from scratch in Storybook with React, standardizing components and assets across multiple products and cutting development-to-delivery time by 20%.

UX/UI Designer & Software Engineer

CATAMOUNT CREATIVE | JANUARY 2023 - PRESENT

- → Freelance design and engineering work for various clients, delivering 20–30% improvements in key metrics through user flow analysis and KPI-driven iteration.

Software Engineer

COTERIE INSURANCE | JANUARY 2020 - MAY 2022

- → Built an insurance agent platform in React and TypeScript for creating, selling, and managing policies — generating 90% of new revenue. Led the rebrand of two primary revenue-driving products.

Community Relations & MEDEVAC Captain

US ARMY | AUGUST 2014 - NOVEMBER 2019

- → Directed medical evacuation operations. Coordinated treatment and transport of 1,450+ soldiers across domestic and international missions.
