Claude Code
Cursor/Codex
Storybook
Supernova
Vercel
Pendo

CODE

HTML/CSS
Javascript
Typescript
Ruby
React
Github

EDUCATION

Launch Academy

Fullstack Apprenticeship
Graduated August 2019

University of Maryland

Bachelor of Arts
Class of 2014

EXPERIENCE

Product Designer II

BAMBOOHR | OCTOBER 2025 - PRESENT

Designed and maintained a library of 124 components serving 50+ product teams and 30+ designers. Led a company-wide initiative to make the entire library responsive, enabling support for 19% of users on mobile and closing the feature gap between desktop and app.

Product Designer | UX Engineer

QUALITI AI | SEPTEMBER 2023 - SEPTEMBER 2025

Created the Eucalyptus Design System to be used by design and engineering teams in order to standardize design components and assets across multiple products. Assisted with establishing and building Eucalyptus components in Storybook with React, resulting in a 20% decrease in development to delivery time.

UX/UI Designer & Software Engineer

CATAMOUNT CREATIVE | JANUARY 2023 - PRESENT

Conducted freelance software engineer and design work for various companies on both short and long term contracts. Redesigned applications by conducting comprehensive analyses of user flows, information architecture, and how KPIs could be improved resulting in enhanced user engagement and 20-30% increases in key metrics.

Software Engineer

COTERIE INSURANCE | JANUARY 2020 - MAY 2022

Built an insurance agent platform for quickly creating, selling, and managing policies using React and Typescript to generate 90% of new revenue. Led the rebranding of two main revenue driving company products to better communicate Coterie's mission.

Community Relations & MEDEVAC Captain

US ARMY | AUGUST 2014 - NOVEMBER 2019

Acted as a liaison between high profile leaders in the military and in the community while fostering relationships with high visibility organizations. Directed medical evacuation operations throughout training missions domestically and internationally ensuring the treatment of 1450+ soldiers from the front lines to higher care through coordinated ambulance and helicopter transport
